DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 9, 10 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Rodman (3,028,603).

The Rodman reference discloses a system for covering access openings in a tub skirt (Fig. 4) comprising: a bracket 34 affixable to a tub skirt 15 (via apron 20 or floor 18); a panel 20 attachable to and detachable from the bracket 34, when attached the panel 20 hiding the bracket 34 from viewing; and portions 25 (on the sides of hole 26) with ribs 25' constituting clips used to attached the panel 20 to the bracket 34.

Regarding claim 2, the bracket 34 extends around the perimeter of a portion of the tub skirt 15 defining an access opening.

Regarding claim 4, the clips integrally formed with and extend from the back of the panel 20.

Regarding claim 5, the clip include a straight portion 25 (inturned flange) and a angled portion 25'.

Regarding claim 6, the angled portioned (rib 25') of the clip includes a leading edge and a trailing edge together defining a V-shape.

Art Unit: 3751

Regarding claim 7, the bracket 34 includes a fastener mating surface 33 having raised ridges 33'.

Regarding claim 9, the bracket 34 is a rectangular frame.

Regarding claim 10, the rectangular frame includes fastener mating surface 33.

Allowable Subject Matter

3. Claims 8 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Pelicano reference shows a panel attached to a tub skirt via a bracket.
